Roman roller blinds

Day & Night

An innovative certified product

Roman roller blind Day and Night is the latest trend on the market which can change itself into supremely elegant and functional roller blind. It combines finesse of Roman roller blind with functionality of day and night system what makes unusual effect of modern design. In our assortment we own two fabric collections Swallow and Starling which contain ten colors to choose.

We own two systems of finishing where you can mix with materials. We recommend S2 system – a box for bigger roller blinds and S1 system for smaller ones. You can also order a roller blind without a front box.

Roman roller blind Day and Night without doubt can be an alternative to curtain or shade. Application of two types of materials in Roman roller blind in one plane makes the roller blind extremely elegant. If you decide to choose the Roman roller blind you get style and functionality. Even the most demanding user will find it enjoyable!
