

Fabric catalog

We present a wide range of premium materials dedicated to the production of both indoor and outdoor blinds. Our offer includes fabrics for indoor and outdoor screen blinds with openness levels of **0%, 1%, 3%, 5%, and 10%**, as well as materials for vertical blinds and day & night systems.

The screen blind fabric are available in a broad color palette, these fabrics allow for perfect matching with both interiors and building facades.

The screen fabrics featured in our catalog offer not only elegant and neutral color tones but also **innovative technological solutions**. Designed with modern architecture in mind, this collection includes architectural colors ranging from white and grey to browns and blacks.

Cooperation

If you are operating in the blinds industry, are a distributor, an architect, or involved in any other aspect of the business related to internal and external blinds, we invite you to collaborate with our company. We have prepared special cooperation conditions for our business partners, which will provide access to the latest products and technological solutions in the field of blinds. We operate on the principle of an individual approach to each customer, therefore we guarantee professional support and comprehensive service at every stage of cooperation. We encourage you to contact us and have a discussion, during which we will explore all possibilities of cooperation and answer any questions. Together we can create products that will meet the needs of even the most demanding customers.
